LogPoint is hosting its' 2021 'ThinkIn' user, partner and new customer conference on June 8-9, 2021

Jun 03, 2021 11:36 CEST

LogPoint's ThinkIn 2021: Insights directly from the Cybersecurity vanguard

Join the 2021 virtual, LogPoint user, partner and new customer conference on June 8-9, 2021. Meet cybersecurity leaders and specialists providing first-hand insights from the frontline. Media can schedule one-on-one interviews and request video clips

COPENHAGEN – June 3, 2021 – [LogPoint](#), the global cybersecurity innovator, is hosting its' 2021 'ThinkIn' user, partner and new customer conference on June 8-9, 2021. It is virtual, free of cost and starts each day at 13:00 CET. Cybersecurity leaders, specialists and customers will provide insight and insider-intelligence on trends and technologies that are transforming businesses around the globe.

“In a world where everything is changing, we all need insight we can trust. As data becomes our most valuable commodity, cybersecurity is increasingly essential. Previously, it offered protection, but as software becomes part of the core of business models of every organization, cybersecurity is foundational to thriving and growing. At LogPoint’s ThinkIn 2021, we’ll provide cyber-industry perspective, trusted insight and learn more about innovation crucial to our global audience,” says Nicolai Zerlang, LogPoint VP Marketing.

At LogPoint’s ThinkIn 2021, customers share their technology successes, we look into new directions and reveal insider-understanding of our technology. Participants will have direct access to industry specialists, thought leaders, and LogPoint innovators. In addition, they can engage with keynote speakers and participate in technical deep dives.

Driving value with security data, understanding the current threat landscape inhabited by state actors and professional hackers, Machine Learning and anomaly detection, accelerating threat detection with threat intelligence, MITRE ATT&CK framework mapping, and managing Security Operation Centers are just some of the topics on LogPoint’s ThinkIn 2021 agenda.

Speakers at ThinkIn 2021 include:

- **Raffael Marty**, Security Innovator, and Thought Leader
- **Thomas Lund Sørensen**, Director – Danish Centre for Cybersecurity, Danish Defence Intelligence Service
- **Mika Hållfast**, VP Security Lead at CGI
- **Dr. Ben Harrison**, Vice President, Global Security Operations at Cygiant.
- **Ian Mulholland**, Senior Research Analyst, Security, Risk & Compliance at Info-Tech Research Group
- **Frederik Helweg-Larsen**, Expert Director, Risk & Security at Devoteam

For a complete overview of the ThinkIn 2021 agenda and speakers, and to sign-up, go to:

About Logpoint

Logpoint safeguards society in a digital world by helping customers and Managed Security Service Providers (MSSPs) detect cyberattacks. Combining reliable technology with a deep understanding of cybersecurity challenges, Logpoint makes security operations easier, giving organizations the freedom to progress. Logpoint's [SIEM](#) and [NDR](#) technologies improve visibility and give a multi-layered approach to cybersecurity that helps customers and MSSPs in Europe navigate the complex threat landscape. Headquartered in Copenhagen, Denmark, Logpoint has a European foundation and is the only European SIEM vendor with a Common Criteria EAL3+ certification. This demonstrates Logpoint's strong focus on data protection and cybersecurity regulations. For more information, visit <http://logpoint.com>.
