Food processing specialist ABP Food Group chooses LogPoint SIEM to bolster cybersecurity and compliance

ABP Food Group, Europe's leading beef processor and private label pet food producer, has turned to LogPoint for a SIEM solution for its separate business divisions. While maintaining separation, the LogPoint solution offers centralized management reducing specialist's workload and increasing efficiency.

Copenhagen – 14 March, 2019 – LogPoint, the next generation SIEM and big data analytics company, has been selected by the award-winning European food processing specialist ABP Food Group to provide a groupwide Security Information Event Management (SIEM) solution to bolster Cybersecurity and

GDPR compliance across business divisions in Ireland, the UK and continental Europe.

The LogPoint SIEM solution allows ABP Food Group to improve threat detection and response by providing real-time data analysis and early detection of data breaches. The solution delivers log shipping-, retention-, and management as well as forensic analysis of security incidents.

“While providing all the features we required in a SIEM solution, LogPoint excelled in providing a convincing Proof-of-Concept that demonstrated a very agile deployment and ease-of-use, which is key in providing an attractive time-to-value for our business,” says ABP Food Group Global CIO Robin Irvine. “In addition, LogPoint offers a licensing model based on nodes rather than data volumes, which provides a cost certainty, crucial to me as a CIO”.

A key feature of the LogPoint SIEM solution is the ability to maintaining separation between ABP Food Group’s business divisions, while providing visibility across the entire group. The unique LogPoint Director console provides ABP Food Group IT a centralized point for orchestration of the entire LogPoint environment, allowing easy simplified deployment and management.

“The ABP Food Group case is an excellent demonstration of two key LogPoint strengths: Unique time to value through efficient deployment and the support for multi-tenancy with centralized management. We are looking forward to providing ABP Food Group a world-class SIEM solution,” says Russel Poole, LogPoint Regional Director for the UK & Ireland.
