HI-Link appointed LogPoint Certified Platinum partner and MSSP in the US

HI-Link joins the growing community of LogPoint Partners, providing business across the US with visibility and actionable intelligence in an increasingly complex IT landscape. The LogPoint next-gen SIEM solution supports Cybersecurity, IT operations, Compliance and Business Analytics across the network infrastructure

Copenhagen & Boston – 6 June, 2019 – LogPoint LogPoint, the next-generation SIEM, UEBA, and big data analytics company, today announced [Hi-Link Technology Group](#) based in Stamford, Connecticut as a certified Platinum Partner and Managed Security Services Provider (MSSP) in the US.

Hi-Link is a full-service information technology consulting firm that implements and maintains high-performance IT systems for small and medium-sized organizations in a wide range of industries. Hi-Link provides reseller services, consulting, project management, hosted data centers, and MSSP services.

In the HI-Link MSSP business, LogPoint displaces a number of legacy SIEM providers, that were falling behind on their MSSP offerings. In their search for alternatives, HI-Link engineers conducted extensive market research and shortlisted five SIEM vendors including LogPoint. Following technical evaluations and proof-of-concept trials, LogPoint emerged as the platform of choice.

“LogPoint offers an ideal multi-tenancy solution MSSPs, based on a technologically very sound platform. As a new entrant to the US market, they are focused, attentive to market requirements and benefit from experience with their large European customer base. Last but not least, the LogPoint licensing model is making a big difference,” said Jim Gartner, Director of Sales and Marketing at Hi-Link Technology Group.

Unlike other SIEM vendors, [LogPoint offers a licensing model](#) based on nodes rather than data volumes (GB/EPS), which provides customers absolute cost certainty and allows them to scale at a predictable cost as business grows.

The [LogPoint SIEM solution](#) delivered on-premises or as-a-service enhances [Cybersecurity](#) and increases visibility by real-time data analysis across the entire network infrastructure aided by UEBA and Advanced Machine Learning. It provides threat detection and early detection of data breaches, and supports IT operations, Compliance, and Business Analytics.

“We are excited to bring HI-Link onboard as a Platinum partner and MSSP. Their competencies and company values are a great fit with LogPoint, ensuring our joint customer engagements will be supported in a professional and highly competent manner,” says Soren Lastrup, LogPoint Founder and Managing Director Americas.

Originally founded in Copenhagen, Denmark, LogPoint Americas is headquartered in Boston, Massachusetts. LogPoint serves more than 700 customers worldwide with offices in the US, UK, Paris, Germany, and Sweden. LogPoint is a partnerships company, working in concert with more than 50

certified partners, MSSP's and distributors across the globe to address the growing SIEM market.

In 2018 LogPoint was recognized in the [Gartner Magic Quadrant for SIEM](#) as the only European vendor. The LogPoint solution is praised by cybersecurity professionals in [Gartner Peer Insights reviews](#) with a 4.5 score out of 5, ranking among the leaders of the global SIEM industry.
