LogPoint is ramping up the team in Finland to support the growing demand for cybersecurity solutions

LogPoint welcomes three new LogPointers to its Finnish location, contributing comprehensive cybersecurity knowledge and skills

COPENHAGEN and HELSINKI – December 9, 2021 – LogPoint, the global cybersecurity innovator, is expanding in Finland to support a growing interest in and demand for LogPoint’s cybersecurity solutions in the Finnish market. Three new employees will join Ari Holopainen, who has had sole responsibility in the market as Regional Sales Manager.

Miika Ruotsalainen joins as Enterprise Sales Manager, taking charge of enterprise accounts and relationships with the large MSSPs in Finland and the Baltics. He comes from a position as Major Accounts Manager at Fortinet and brings a profound knowledge of the market and customer needs.

Sami Knuutinen is the new Presales Engineer, responsible for the technical aspects of presales. He joins from a similar position at LogPoint partner Telia Cygate, where he worked with LogPoint's products, making him familiar with LogPoint and its opportunities in the market. **Rami Rauanmaa** joins as Senior Sales Engineer from Check Point. He will be responsible for enterprise presales and support all countries across the Nordic region.

“Ari has done an amazing job, and with the team expansion, we're able to tend to all the exciting opportunities in the Finnish market. We can broaden the scope and take care of strategic partnerships, large enterprises and address security issues connected to SAP, which is widely used in Finland,” says Martin Fribrock, LogPoint Regional Director in the Nordics. “Miika, Sami, and Rami all bring extensive and valuable experience and knowledge about the cybersecurity space, contributing to LogPoint's continued efforts to help customers overcome the inevitable security issues on their digitalization journey.”

LogPoint provides an integrated, foundational security operations platform based on its core SIEM solution, UEBA, SAP security, and SOAR. LogPoint accelerates detection and response to security incidents and enables organizations to convert data into actionable intelligence, supporting cybersecurity, compliance, IT operations, and business analytics.

About LogPoint

LogPoint is the creator of a reliable, innovative cybersecurity operations platform – empowering organizations worldwide to thrive in a world of evolving threats. By combining sophisticated technology and a profound understanding of customer challenges, LogPoint bolsters security teams' capabilities while helping them combat current and future threats.
