Logpoint named a Leader in the IDC MarketScape on Worldwide SIEM for SMB 2024 Vendor Assessment

COPENHAGEN, October 31, 2024 – [Logpoint](#) has been named a Leader in the latest IDC MarketScape: Worldwide SIEM for SMB 2024 Vendor Assessment (US52038824, September 2024). Logpoint SIEM centralizes data monitoring for heightened visibility to help mid-sized organizations and the Managed Security Service Providers (MSSPs) who serve them detect, investigate, and respond to cyber threats and meet compliance requirements.

“We believe that being recognized as a Leader in the IDC MarketScape Worldwide SIEM for SMB shows how dedicated we are to giving European organizations and mid-market MSSPs the tools they need to stay ahead of

cyber threats and keeping up with ever-evolving compliance requirements,” says Sean Muirhead, Logpoint Chief Product Officer. “With our SIEM solution, security teams can connect all data sources, increase situational awareness, and take appropriate action to fend off cyberattacks while resting assured that the security data is well-protected.”

Logpoint offers a European Cyber Defense Platform based on SIEM, helping companies detect cyber threats and meet regulatory demands. The company recently acquired AI-driven NDR provider Muninn to help customers and partners increase the chances of fending off cyberattacks. As the only European SIEM vendor with a [Common Criteria EAL3+ certification](#) required by NATO, Logpoint’s solutions are recognized for their data protection and privacy.

The IDC MarketScape Worldwide SIEM for SMB 2024 is a comprehensive analysis that evaluates security information and event management (SIEM) vendors tailored to SMBs. The report provides a detailed assessment of SIEM vendors based on quantitative and qualitative factors that matter most to SMBs when selecting a solution. The IDC MarketScape draws from interviews with end users and buyers and insights from IDC market experts to establish its weightings and evaluation standards.

For SMBs, the IDC MarketScape is a valuable guide for choosing the right SIEM solution, offering a clear, research-backed view of the market’s key players. IDC subscription clients can read the [IDC MarketScape: Worldwide SIEM for SMB 2024 Vendor Assessment here](#).

About Logpoint

Logpoint helps organizations and partners protect against cyberattacks and streamline security operations by combining sophisticated technology and a profound understanding of customer challenges. Logpoint’s threat detection, investigation, and response solution based on SIEM, Behavior Analytics, Automation, and Case Management technologies empower European organizations to achieve security outcomes across any premise through high-quality data, continuously updated security content, flexible deployment options, and industry-best predictable licensing. Headquartered in Copenhagen, Denmark, Logpoint has a European foundation and is the only European SIEM vendor with a Common Criteria EAL3+ certification. This

demonstrates Logpoint's strengthened focus on data protection and adherence to data and cybersecurity regulations. For more information, visit <http://www.logpoint.com>.

About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of technology and service suppliers in a given market. The research utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each supplier's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of technology suppliers can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective suppliers.
