Logpoint named a Major Player in 2022 IDC MarketScape for worldwide SIEM software

COPENHAGEN & BOSTON, November 30, 2022 – Logpoint has been named a Major Player in the latest IDC MarketScape: Worldwide SIEM 2022 Vendor Assessment (doc #US49029922, November 2022). Logpoint Converged SIEM is a security operations platform that converges SIEM, SOAR, UEBA, and security for business-critical systems such as SAP.

"We're proud to be included in IDC MarketScape for worldwide SIEM software as a Major Player. We always strive to empower our customers through cutting-edge technology to overcome the complex challenges they face in

cybersecurity – from the expanding attack surfaces to solution saturation and lack of cybersecurity professionals," says Jesper Zerlang, Logpoint CEO.

Logpoint Converged SIEM accelerates detection and response and enables efficiencies of scale while consolidating the technology stack. It increases security posture, eliminates the complexity of operating siloed products, and allows analysts to automate across tools based on a unified high-quality data foundation from the entire IT landscape.

About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.
