LogPoint named a Visionary in the Gartner Magic Quadrant for Security Information and Event Management

COPENHAGEN & BOSTON – February 25, 2020 – [LogPoint](#), the Modern SIEM, and UEBA company has been named a Visionary in the 2020 Magic Quadrant for Security Information and Event Management (SIEM) by Gartner, the leading independent technology research organization.

LogPoint Modern [SIEM](#) with [UEBA](#) provides advanced behavioral analytics and ML-driven automation capabilities, enabling customers to effectively detect and manage the constantly evolving cybersecurity threat, and reduces the resources required to handle them.

“We are incredibly proud to be among the Visionaries in the SIEM space. We believe that our inclusion in the Visionaries quadrant validates our vision for challenging the market rules in the established SIEM space”, says LogPoint CEO, Jesper Zerlang.

“For instance we are the only SIEM vendor to offer our customers 100% predictable pricing. Our SIEM is uniquely suited for MSSP’s and if security in Enterprise Business applications like SAP is a priority, there’s no better solution than LogPoint”, says Zerlang.

In the 2020 Magic Quadrant for SIEM Gartner analysts recognized LogPoint for ability to execute and completeness of vision among other vendors.

We are also honored by the reviews LogPoint has received by Cybersecurity peers throughout 2019. We were named [an April 2019 Gartner Peer Insights Customers' Choice for Security Information and Event Management \(SIEM\)](#). Separately, we achieved a clear #1 position in the 2019 SoftwareReviews SIEM Data Quadrant.
