LogPoint partners with Securelytics in Malaysia to provide high-level cybersecurity

LogPoint partners with cybersecurity advisory firm Securelytics to provide robust protection of customers in Malaysia through a unified cybersecurity operations platform based in SIEM, SOAR, and UEBA technologies.

COPENHAGEN & KUALA LUMPUR, Jan. 20, 2022 — LogPoint announces a new partnership with Securelytics to safeguard customers' businesses against the increasing number of cyberattacks in Malaysia. As a LogPoint partner, Securelytics will offer a complete security operations platform based on SIEM, SOAR, and UEBA technologies.

"We're excited to announce the new partnership with Securelytics in Malaysia. Securelytics has extensive cybersecurity experience and a profound understanding of market trends, enabling them to pursue the many opportunities for LogPoint in the market and establish a true presence," says Jesper Zerlang, LogPoint CEO. "To help the struggling SOCs, LogPoint provides a holistic and automated approach to incident response, minimizing the time it takes for security teams to detect, orchestrate and respond to cyber incidents."

The announcement follows the launch of LogPoint 7.0, which introduces native SOAR capabilities into its core SIEM solution at no additional cost and is packed with out-of-the-box use cases, playbooks and integrations. With the new offering, customers get a combination of analytical capabilities and a robust incident response automation tool.

Securelytics was founded in 2014 and is a leader in cybersecurity, delivering tailor-made services to support businesses in Malaysia securing their IT environments. The company provides managed cybersecurity services and cybersecurity advisory with a proven track record, working on projects for local and international clients within sophisticated technology and security.

"We strive to serve our customers with exceptional products and services to safeguard their businesses, and we believe LogPoints offering is an excellent addition to our portfolio. LogPoint has been named a Gartner Peer Insights Customer Choice for the fourth time since 2017 and excels in service and support," says Muzamir Mohamad, Founder & CEO of Securelytics. "With an innovative business model, LogPoint enables us to provide state-of-the-art and future-proof SIEM technology beneficial for our customers, combatting increasing cybersecurity threats daily."

LogPoint is an integrated, foundational security operations platform, including SIEM, UEBA, SAP security, and SOAR. With one unified solution for the entire detection, investigation, and response process, customers can quickly detect threats, minimize false positives, prioritize risks, responds to incidents, and much more, all in one place.
