MBA IT appointed LogPoint Certified Gold partner

London-based MBA IT joins the growing community of LogPoint Gold Partners, providing UK businesses visibility and actionable intelligence in an increasingly complex IT landscape. The LogPoint SIEM solution supports Cybersecurity, IT operations, Compliance and Business Analytics across the network infrastructure

Copenhagen & London – 24 April, 2019 – LogPoint, the next generation SIEM and big data analytics company, today announced London-based [MBA IT](#) as a certified [Gold Partner in the UK](#). With LogPoint in the solutions portfolio, MBA IT is able to provide customers with an advanced, easy to integrate, yet affordable SIEM solution ready to scale.

“As data and processes move away from customer premises to the cloud and everywhere in between, there is an exponentially growing need to increase the cybersecurity level and improve visibility across the infrastructure. It’s hard to plug a console cable into AWS or Azure and LogPoint is the solution for that“, says Kei Hambrook, Security Presales Manager at MBA IT.

The [LogPoint SIEM solution](#) enhances [Cybersecurity](#) and increases visibility by real-time data analysis across the entire network infrastructure aided by UEBA and Advanced Machine Learning. It provides threat detection and early detection of data breaches, and supports IT operations, Compliance and Business Analytics.

“We’ve evaluated a number of other SIEM vendors, but LogPoint is delivering exactly what customers need at exactly the right price point. The solution stands out in its ability to ingest data from any commercially available source, a service provided free of charge, and a very attractive licensing model”, says Kei Hambrook.

Unlike other SIEM vendors, LogPoint offers a [licensing model based on nodes](#) rather than data volumes (GB/EPs), which provides customers absolute cost certainty and allows them to scale at a predictable cost as business grows.

“We are excited to bring MBA IT onboard as a Gold partner. Their competencies and company values are a great fit with LogPoint, ensuring our joint customer engagements will be supported via a professional and highly competent partner,” says Russell Poole, LogPoint Regional Director for the UK & Ireland.

“MBA joins a prestigious list of Focused LogPoint Gold Partners in the UK&I market and we are looking forward to expanding the opportunities in what I believe is the most exciting SIEM market in Europe,”

LogPoint is headquartered in Copenhagen, with offices in London, Paris, Munich, Stockholm and Boston. It’s a partnerships company, working in concert with more than 50 certified partners, MSSP’s and distributors across the globe to address the growing SIEM market.

In 2018 LogPoint was recognized in the [Gartner Magic Quadrant for SIEM](#) as the only European vendor. The LogPoint solution is praised by cybersecurity

professionals in [Gartner Peer Insights reviews](#) with a 4.5 score out of 5, ranking among the leaders of the global SIEM industry.
